ELEMENT 11

PARK VALLEY, UTAH

STARGAZER RANCH

JUNE 18-22, 2025

WELCOME TO ELEMENT 11!

ENTER THE NEXUS

Congratulations on reaching the nexus of Element 11! Your descent through flickering data corridors, the hum of encrypted signals, the sentinels' coded greeting, and the radiant pulse of the Nexus core. Every transmission brought you here, where your code merges with the pulse of the system. Decode the map embedded in this guide to locate your sector, deploy your modular hubs lit in vibrant hues, let the spirit of glitch and curiosity surge through you, and upload your wildest visions into this electric playground of infinite potential.

Element 11 is a sanctioned, regional Burning Man event. Our mission is to ignite a culture of creativity and self-expression. This annual arts and community gathering is a blank canvas where artists, musicians, sculptors, and performers come to create, perform, play, and camp over a 5-day event. Be sure to read your Survival Guide along with this booklet to get acquainted with the art installations, theme camps, and amazing schedule of performances, workshops, festivities, and more! Element 11 granted out over \$80,000 to art projects this year, the most we've ever seen on our Playa!

Visit Element11.org when you return home for updates, photos, videos, and volunteer opportunities. Defer to your Survival Guide for tips on surviving the harsh desert conditions. Drink water! Finally, be sure and thank our volunteers for all the hard work they have put into building the city, keeping us safe, and feeding us with tender loving care!

WHAT IS ELEMENT 11?

Element 11 is a 5-day, 4-night art event that ignites a culture of creativity and self-expression and incorporates the 10 principles of Burning Man such as self-reliance and civic responsibility. This is not a party, concert, or even a festival like you may have attended before, but rather a radical celebration of shared values, art, and effort for the good of all. Element 11 is not your usual gathering. In fact, it's more of a temporary city. Our city is home to 2,200 participants who camp by themselves, or in camps centered on a particular theme. Our city is marked by the prevalence of art of all kinds. Examples of art you may find in your travels include static art installations, movable art (art cars), performances, workshops, and service projects. Live music and performance art abound as well, especially as the sun sets and the fun gets started; DJs, musicians, and dancing keep us on our toes into the night. This guide includes safety information and policies, schedule of events, art and theme camps, as well as helpful suggestions from members of the community.

**Neither Burning Man nor Black Rock City LLC is a producer or organizer of the event, and Burning Man Black Rock City LLC accepts no liability arising out of or in connection with the event.*

**Disclaimer - Barring ice, nothing is sold or served at/ by Element 11. Various individuals often share food and beverages within their private camps, but there is no selling or service of any food or beverages at Element 11. Participants are advised that it is illegal in the State of Utah to sell food or beverages without a permit.*

ELEMENT 11 LOVES VOLUNTEERS!

Element 11 is 100% powered by passionate volunteers!

From awe-inspiring artistry to well-trodden paths and guiding signs, from the nurturing Rangers tending to our scraped knees to the tireless cooking, cleaning, sweeping away MOOP, fluffing, and meticulous record-keeping. From the determined builders, diggers, hammerers, and sweat-drenched visionaries who shaped this magnificent city, our enchanted realm thrives on the dedication of volunteers like you. Keep an eye out for those adorned with laminates or sporting vibrant t-shirts, and share a celebratory high-five or an affectionate (consensual) hug, expressing gratitude for their invaluable contributions. If you're part of our volunteer crew, the Volunteer Lounge awaits you with steaming coffee and delectable snacks at any hour. Savor daily breakfast and dinner specially prepared for volunteers, and don't forget to bring your own plates, utensils, and a cup, as we embrace sustainability at the heart of our enchanted gathering.

If you didn't sign up for a volunteer shift at home, make sure to stop by the Volunteer Lounge and sign up for a few!

WHO TO CALL IN AN EMERGENCY?

E11 has several groups of amazing volunteers who help keep us safe or put us back together when serious problems happen. E11's medical team is made up of professionals who volunteer their time and skills, ready to respond when medical attention is needed, either for minor cuts and scrapes or emergency prehospital care for traumatic injury.

Medical services are available 24 hours a day at Medical HQ at the north end of the event (near the entrance). For emergencies, please call 734-726-4374.

RANGERS

Rangers are volunteers from the community who serve as non-confrontational mediators, problem solvers, information bearers, and all-around helpful sorts. Rangers can be seen throughout the event. Rangers work burn perimeters, check the roads for lost people or stranded vehicles, and much more. Help from Rangers and/or Medical services is available 24 hours a day at Ranger HQ at the north end of the event (near the entrance). E11 Rangers are volunteers (not law enforcement) available to help participants with a variety of questions, concerns and emergencies throughout the event. If you need assistance, look for the Rangers always walking in pairs, or go to Ranger HQ.

CONSENT

The E11 Community values safety and well-being just as much as the fun! If you need support, you can find it with the Rangers, Medical, or at Sanctuary. Consent is enthusiastic, out loud, and freely given! No means no. It needs no further explanation. Remember *crickets* are not consent. Always ask before hugging, misting, spraying, photographing, or offering any other service or friendly introduction to another person.

GUIDED MEDITATION: BEGINNER'S MINDFULNESS FOR LIVING A MORE EMBODIED LIFE

CATALÜN VILLAGE

Join us to learn the basics of mindfulness meditation as a path to become an aware, curious witness—to unfuse with the cognitive self as the primary seat of knowing and show up fully to the present moment: the only thing that is real. I will show you how to shift the weight of your awareness into sensing, noticing,

and watching, over the ego-fused cognitions which typically dominate our experience... often with misleading, interpretive stories and judgments about what is. Increasing the mind-body junction through such consciousness allows an embodiment where present moment awareness and full engagement is possible.

2:30pm - 4:00pm

INTRO TO AUTHENTIC MOVEMENT

CATALÜN VILLAGE

"Authentic Movement is a practice through which we can connect with and communicate our internal experience, while at the same time receiving the support of being seen by someone else. It teaches us to embody our feelings, circumventing the limitations of language-based thought. Each participant will take a turn as a "mover" and a "witness." Movers will be asked to respond to their feelings, waiting to be moved by them, individually and without the influence of music. Witnesses will develop their ability to attend to others and, simultaneously, pay attention to what they experience in themselves. The group will take some time to talk about whatever was expressed or felt, and then we'll switch roles. It can feel very vulnerable to know that you are being seen, so the group practice and conversation will have guidelines ensuring as much emotional safety as possible. Due to the need for inward focus in this class, it is not appropriate for children under age 14.

BURNING MAN'S TEN PRINCIPLES

RADICAL INCLUSION

Anyone may be a part of Burning Man. We welcome and respect the stranger. No prerequisites exist for participation in our community.

GIFTING

Burning Man is devoted to acts of gift-giving. The value of a gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value.

DECOMMODIFICATION

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

RADICAL SELF-RELIANCE

Burning Man encourages the individual to discover, exercise and rely on his or her inner resources.

RADICAL SELF-EXPRESSION

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

COMMUNAL EFFORT

Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks, public spaces, works of art, and methods of communication that support such interaction.

CIVIC RESPONSIBILITY

We value civil society. Community members who organize events should assume responsibility for public welfare and endeavor to communicate civic responsibilities to participants. They must also assume responsibility for conducting events in accordance with local, state, and federal laws.

LEAVING NO TRACE

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavor, whenever possible, to leave such places in a better state than when we found them.

PARTICIPATION

Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing. Everyone is invited to work. Everyone is invited to play. We make the world real through actions that open our heart.

IMMEDIACY

Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience.
